## PROFESSIONAL SUMMARY

Software Engineer with experience building scalable backend systems and production-ready applications using Node.js, Express.js, MongoDB, Redis, Docker, and React. Strong foundation in System Design, Distributed Systems, REST APIs, Authentication, Caching, and Database Optimization. Solved 900+ DSA problems, maintained a 500+ day LeetCode coding streak, earned a 5 HackerRank Problem Solving badge, and ranked in the Top 15% of LeetCode contests.

## EDUCATION

**Pranveer Singh Institute of Technology, Kanpur**

2023 – 2027

*Bachelor of Technology in Computer Science & Engineering (AI)*

*CGPA: 7.3*

## EXPERIENCE

**Backend AI Engineering Intern**

Jul 2026 – Present

*FlyRank AI (Remote)*

- Developing scalable backend services and AI-powered applications using Node.js and modern backend technologies.
- Designing REST APIs, backend workflows, and production-ready data processing pipelines.
- Optimizing backend performance through modular architecture, efficient API design, and caching strategies.
- Collaborated through code reviews, clean coding, testing, Git workflows, and engineering best practices.

## PROJECTS

**Real-Time Chat Platform**

Oct 2025 – Feb 2026

[Live](#) | [GitHub](#)

*MERN, Socket.IO, Redis, Docker*

- Built a scalable real-time chat platform supporting 1K+ concurrent users using MERN, Socket.IO, and Redis.
- Designed low-latency messaging using Redis Pub/Sub, WebSockets, and event-driven architecture.
- Implemented JWT, RBAC, rate limiting, secure messaging, and online presence tracking.
- Dockerized backend services and optimized REST APIs using caching and modular architecture.

**KashiRoute – AI-Powered Travel Booking Platform**

Feb 2025 – Sep 2025

[Live](#) | [GitHub](#)

*MERN, Redis, Docker*

- Built an AI-powered travel booking platform with secure payments and intelligent chatbot support.
- Developed 20+ REST APIs for bookings, authentication, payments, chatbot, and admin operations.
- Integrated Redis caching, JWT, RBAC, Razorpay, rate limiting, and session management.
- Improved performance using MongoDB indexing, Docker, query optimization, and cloud deployment.

**PhishShield – URL Threat Detection Platform**

Feb 2025 – May 2025

[Live](#) | [GitHub](#)

*Node.js, Express.js, MongoDB*

- Built a real-time phishing detection platform using Google Safe Browsing API and REST APIs.
- Implemented OTP authentication, secure input validation, encrypted workflows, and session management.
- Designed scalable REST APIs with MongoDB indexing, query optimization, and modular architecture.

## TECHNICAL SKILLS

**Languages:** C++, JavaScript, Python, C

**Frontend:** React.js, HTML5, CSS3, Redux

**Backend:** Node.js, Express.js, REST APIs, Socket.IO

**Databases:** MongoDB, Redis, SQL

**Cloud & DevOps:** Docker, AWS, Git, GitHub, CI/CD, Render, Vercel

**Security:** JWT, RBAC, Session Management, Bcrypt, CORS, Rate Limiting

**Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks, System Design

## ACHIEVEMENTS

- Solved **900+** DSA problems across LeetCode, HackerRank, and other coding platforms.
- Maintained a **500+ day** LeetCode coding streak and ranked in the **Top 15%** of LeetCode contests.
- Earned a **5 HackerRank Problem Solving** badge, demonstrating strong algorithmic and analytical skills.

## CERTIFICATIONS

- **Oracle Agentic AI Certified Foundations Associate** – Oracle University
- **AWS Educate: Cloud Computing 101 (Trained)**

Jul 2026
